s. H. R. Co.

HOLLT SPRINGS, Miss., November 3.—Captain William Crump, president of the board of commissioners of the Holly Springs and Memphis railroad company, has called a meeting of the board to assemble at the Peabody hotel, Memphis, on Friday, the ninth instant. The object of the meeting is to bring about a conference with the Memphis and Selma railroad company and its bondholders, to ascertain if any agreement can be effected by which the road may be sold, thus affording the new company an opportunity of negotiating for it, and proceeding at one to the work of building the road. Moneyed people here and along the line are ripe for this most valuable enterprise.

The "Grand" Rally of the Indepennts Almost a Failure-The Proty-A Big Democratic

HOLLY SPRINGS, November S .- After having published their programme for a grand raily at this place te-day, the Independents assembled their followers accordingly. They could not have numbered more than eight now claim the election of their full ticket by a large majority. Both sides appear to be sanguine. The political excitement is be-coming decidedly warm. To-night the Dem-ocrats make their demonstration. Speeches by prominent citizens, firing of cannon, dis-bay of fireworks, and all that, are in the pro-gramme. The work will be brisk between this and Tuesday next.

GRENADA. Cheering News from Mississippi-The Cause of the Independents at a Discount and the Democ-

racy Triumphant.

GRENADA, Nevember 3.—To-day has been one of much importance to Grenada county. The independent candidate for sheriff, Matt Mister, having extensively advertised that he would make his overwhelming speech, and his final one of the campaign, caused rather more than the usual number of people to be present, especially the colored people. Mister delivered himself of his heratofore boasted except much however to the chagrin of his speech, much, however, to the chagrin of his followers and to the disappointment of his former triends. He showed the weakness of his cause in every proposition submitted, and nothing to nightis more lovely than the prospects of his defeat. Mister was answered by pects of his defeat. Mister was answered by C. L. Bates, Esq., in a most happy and spirit-ed style. Mr. Bates is a native of this county, a popular and most eloquent debater, as e is also one of our most promising young wyers. He handled the Independents in a masterly manner; not, however, in a spirit of unfairness, but with that firmness and unflinching eloquence his devotion to which inspired his listeners with the utmost enthusiasm. His arguments induced a great many to support the regular ticket who had previously been led to believe that the Independent movement was not antagonistic to good government. The county executive committee did its duty in extending to Mr. Rates a vote of thanks for his yeoman service dueing our present campaign. Grensda

Contract for the Monument Awarded by the Committee of the Historical and Relief Association.

At a meeting of the monumental commit-tee of the Confederate historical and relief association, held at the office of Mr. McFar-land, yesterday, the bids for the erection of the Confederate monument were opened and found to be as follows:

The bid of Mr. Bell being the lowest, the contract was awarded to him, the work to begin as soon as the balance of the fund necessary to complete the monument is raised. We understand the committee now has some three thousand two hundred dollars, and need only about one thousand dollars in and need only about one thousand dollars in order that the work may proceed at once. We are asked what is being done by the finance committee, appointed by the Confederate association some months ago, of which Dr. D. D. Saunders is chairman and Joseph Lenow, B. J. Semmes, J. T. Pettit, John M'Brook, and other prominent citizens are members. They should, as we hope they are, be at work at once, in order that the contract may be given out and the monument built by next Deconation day. This committee is composed of excellent gentlemen, who will properly discharge their duties.

SAN FRANCISCO

So-Called Workingmen's Outrages Critical.

San Francisco, November 3,—For several weeks past a series of the so-called workingmen's meetings have been held in the open air, at various points in the city, in which the speakers have indulged in the post violent and incendiary harangues, the attenual peace of the community and the layes and property of a number of prominent city rens by name. No attempt has nent cit. ens by name. No attempt has been made to arrest the speakers, owing to a disinclination of the authorities to make martyrs of them. The press has also been silent, until with in a few days, when the principals woth ded an alarm at the impetus which the disorderly movement is gaining, and are now calling loudly for the prompt and en argetic action of the authorities. The Chinese nave already taken the alarm, and six companies have addressed a communication to the mayor, calling his attention to the threats which these demagegues have uttered against them, and asking protection. Many cool-headed citizers, consider the situation liable to become criticial, unless such action is taken as will effect-nally stamp out riotous conduct. It is not considered that the workingmen of the city, as a body, are in sympathy with the move-ment, but that it is supported mainly by the dangerous classes and those who have be-come desperate by the pressure of the pre-Dennis Kearney, the most prominent of the agitators who have lately been making incendiary speeches to assemblages of workingmen in the city, was arrested to-night while addressing a crowd on Kearney street, near the city hall. No disturbance ensued, though Kearney had previously defied arrest. He was locked up on two charges of mixlemeaning, in default of three thousand dollars bell in each case.

London, November 3.—A Paris correspondent, commenting on the conciliatory papers, says the reason for it is that the min-istry has decided to be governed by the result of the elections for the councils-general.

A Paris correspondent asserts that the following semi-official note has been sent to the provincial papers: "It appears to have been decided at the last cabinet council that the present cabinet will remain in office till November 5th. After elections to councils, the general government will find itself in the ence of two extreme policies-one of resistance to the chamber of deputies, with the support of the senate, and the other of comsupport of the sengte, and the other of com-plete concession, bringing into office a minis-try composed exclusively of the left. The present disposition of the marshal does not admit of the latter policy. However, the president is willing to sas if it be not possible to arrive at some manner by which the left of the chamber of deputies and right center to the chamber of the chamber of deputies and right center to the chamber of deputies and right center to

The Bohemian Girl.

MEMPHIS

Monday and Tuesday evenings the opera of the Bohemian Girl, which has been under rehearsal so long, will be presented by a full troupe of amateurs, comprising the best vo-calists and most skillful musicians of Memphis. The talent of the ladies and gentle-men who take part in this opera, and the great care which they have taken with the piece, give assurances that it will be present-ed in such a manner as to command the admiration of the large and fashionable audiences that will be present. Nearly every seat in the Theater has already been sold, and upon both evenings the Theater will be crowded to its utmost capacity. The costuming of the different persons who engage in the opera will be of the most recherche character. The piece will be well mounted, and we are confident that its production will surpass any previous effort of amateurs in the line of operatic or dramatic entertain-

Barlow, Wilson, Primrose and West. Barlow, Wilson, Primrose and West's ne-gro minstrels begin an engagement at the Memphis Theater next Wednesday night. Of

this troupe nothing too extravagant can be said. Barlow is acknowledged to be the best negro minstrel in America; Wilson is popular, and a talented artist; Primiose and West are favorably known in Memphis. In speaking of the recent visit of the minstrels, the Springfield Republican says: "Notwithstand-ing the decided unpropritious weather, an audience at once appreciative and much larger than the average, was at the operahouse last evening. A Descried Mother Poisons her Children and Herself and Sets Fire to her House in a Fit of Des-

CHICAGO, November 3 .- A Times's Sparta, Wisconsin, special says: "News has just been received from Wilton of a horrible affair which ococcurred there Thursday night. Mrs. Wm. Van Voorhees, a young woman with three young children, and about to become a mother again, had, after living unhappily with her husband, in their home on the outskirts of the village, been deserted and left desolate and despondent. She frequently spoke of suicide to the neighbors, and was prevented from purchasing poison by them. Thursday night, about nine o'clock, her dwelling was discovered in flames, and when the neighbors reached the house, and burst in the doors, they proceeded to her room, where a sickening spectacle greeted their eyes. The mother, nearly naked, lay face down in bed, with her two youngest children in the same position by her side. The hair, scalp, and portions of the arms were burned off from each, and the blazing rafters from above were falling down upon them. The body of the oldest boy, aged ten years, was found behind the bedroom door, burned to a crisp. Blood was found spattered upon the bedclothes and upon the mother's garments. Appearances indicated that the woman had poisoned herself and children, and that life was extinct before the ames reached them. No marks of violence could be discovered upon the bodies, but the matter is being rigidly investigated.

COLUMBIA, S. C., November 3.—The testimony in Cardoza's trial closed this afternoon. The defendant, in the cross-examination, testified that Hardy Solomon offered him a bribe of five thousand dollars, when visiting his private office, to pay certain fraudulent claims amounting to twenty thousand dol-lars. Solomon contradicted this statement and alleged he had given Cardova three or four thousand dollars as part of the transaction. lomon's cashier, Zealy, testified that when he presented the claims Cardoza's clerk de-murred to the payment, when Cardoza told him to pay the demand; it was none of his business. Counsel for defendant subsequent-ly admitted the substitution of fraudulent

claims. The argument of counsel will begin Monday. The jury is kept together and guarded every night. Damage by Storm on the Lakes. At the time he was coming to town with a load of wood drawn by a mule. On the bridge he met Dr. Pryor's wagon, on which were two negroes, and, owing to the narrowness of the bridge, his animal came in collision with Dr. Pryor's wagon, stripping the harness off the mule. He replaced the harness, after an angry altercation of words with the negroes in other wagon, and proceeded on his way to town. THE opposition which new inventions meet with from parties who are interested in the sale of articles in the sale of which has been produble—is oftentimes shown with a bitterness which overreaches itself and proves entirely aboutive. Perhaps no opposition of this kind has ever shown itself so radically as tost connected with the introduction of the Mathushek Plano. This beautiful instrument came before the public with a decided improvement on the style which had been in vogue so long, and which is still persistently adhered to by so many. This improvement marked a great change, and promised an immense benefit in the construction of Planos. If it were to prove a success, would not all dealers in Planos of other construction gradually find their business slipping away from them? The question was sufficiently alarming to rouse the spirit of opposition to the Mathushek to the highest pitch.

There was a concepted move on the part of the makers of the old style in the part of the part of the makers of the old style in the part of the part of

THE NEW SEWING-MACHINE

WHAT IT IS.

IT is the most powerful and durable, the lightest-running, and most silent Sewing-Mackine made. POWER.—The application of force directly over the needle insures ample power and enables it to go through the heaviest work with ease.

DURABILITY.—All the working parts are thoroughly hardemad, and so adjusted that lost motion can be readily fasen up.

EASE OF ACTION.—The simplicity of its machinery, the few bearings and points of friction, and the absence of all cams and gear-wheels, give it a light, easy action that requires but little motive power. power.

It has an AUTOMATIC TESSION, whileh being self-regulating, does away with what in other machines is a fruitful source of annoyance and trouble.

There being no cogs to rattle, and no came to rab and grind, it does its work without noise.

Its action is so light and easy that it can be run by a fine cotton thread in place of the ordinary leather band.
